

Adelphi Feb 22nd 1837

My Mother

I yesterday received a
long looked for letter - and was
pleased to hear that all enjoy
good health - I should be glad
to say the same of myself
but at present - cannot - but my health
is so much better than it has been
for a few weeks past that I consider
my self tolerable well - but I am
very much trouble with the
head ache but I think that I shall
soon get well of that

I do not stand in need of anything
in particular but some collars
my round ones not suitable -
and the others being mostly
worn out, Also if you should have
time to prepare a pair of drawers
and send out. It would be a great
accommodation my cloths being left at the wash
room as through the week washes
it very inconvenient having only
five pair

Mary wished to have those papers
sent to her. She can have the
Philadelphia every week if she wishes
and the other if I do receive any
more. It has been reported that the
press is destroyed for slandering
some individuals of the city.

If Pd will let me know when
he will be at Lyme or Gandusky
by line or any other way I will call
on him
W. Johnson
