Editors want feedback

As one walks the halls of WHS he can't help hearing students and teachers complaining. Students don't understand why they must do "this" and can't do "that." Teachers wonder why students continue to do "that" and won't do "this." There are endless numbers of questions, gripes, and problems which confront society today.

The Chronicle does not profess to be "Dear Abby" or "Ann Landers'', but we would welcome any and all letters. We will print any letter that conforms to accepted standards. Don't forget,

this is your paper. Any student or teacher may bring his letter to Mr. Mansfield in room 214, put it in Mr. Mansfield's mailbox, or give it to any Chronicle staff member. Remember this is your paper and we publish what you want.

Preserved at WHS

by Rudy Hitzemann and Steve Parsons

Dear Editor,

We feel obligated as students in this supposed institution of learning to expose the outrageous acts of censorship committed by the library administrators in order to enforce their ideals of what one should be allowed to learn. Specifically, the senseless rejection of the Black Panther Party newspaper at the WHS library. When first confronted with the idea of allowing the paper in the library, librarian Evans, although admitting to having never seen or heard anything of or about the paper, immediately gave a flat refusal. When pressed further, librarian Evans conceded to look at a copy of the paper, but in the same breath, made it quite clear that it would have no effect on her already established opinion. Not wishing to let the matter die an early death, we pursued media-center-head, Purcell. Despite the recommendation for the paper by several WHS teachers, her stand on the issue was remarkably similar to that of Mrs. Evans.

The situation at hand here is, of course, more than just a matter of one newspaper. The entire ideal of freedom to hear and learn of issues in the world is at stake. Why should any material be prohibited to an entire student body on the grounds of political, racial, or moral differences of a selected few? Such censorship is just one more uncovered example of the attempt to mould students into set patterns. There can be no doubt that when a school imposes such rigid censorship upon students, it is no longer the institution of learning that it professes to be.

Snowballing Is Fun,

by Rick Roemmele with Nathan Osborne But. . .

One of this winter's major activities, will most definitely be snowball throwing. This is a long standing tradition at WHS. Unfortunately, snowball throwing usually entails injuries.

According to the head school nurse, Mrs. Genevieve Knouff, anything to curb snowball fight is certain." throwing she said, "No, because I to snow, but, it has to start with each student." She said the only injury that could have been because there is still a chance of accidents happening."

snowball throwing was a lot of of a boy, a few years ago. fun, but he also said there is throwing snowballs he said that there was no written - down penalty, but there is a definite rule saying that students will not be allowed to throw snowballs.

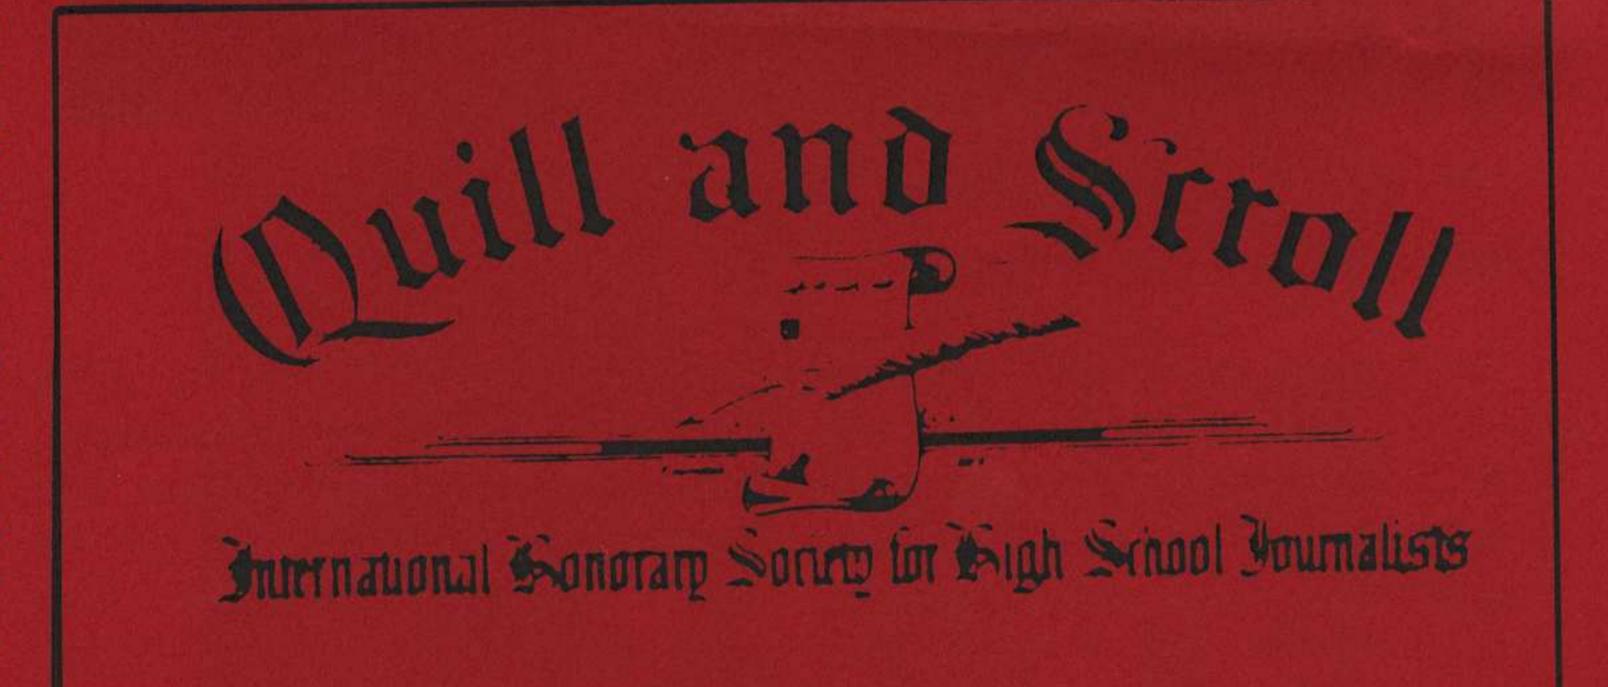

He also made a reply that if one hurts somebody, whether temporary or not, his parents and he himself are liable. He said that this and the students' safety are the only reasons that kids are not allowed to throw snow balls.

Asked if he could suggest any there have been three injuries to changes to stop snowball students after only two days of throwing, he said, "Nothing snow. When Mrs. Knouff was would, really, because where asked if she could suggest there is snow and kids a snowball

Mr. Merrilees was to be asked think kids are naturally attracted similar questions but he was unavailable for any comment.

Mr. Apthorp said penalties for throwing snowballs could be serious was a girl that was hit in anything from a verbal the eye. When she was asked if a reprimand to suspension. Mr. certain designated area for Apthorp also said he feels that snowball throwing were erected the thrill of the snow will would help she replied, "No, diminish after a few snowy days. He said the worst injury he has heard of while he's been here at Mr. Cavanaugh admitted that Worthington was a cut on the eye

All the people talked to, had much danger which students one comment in common, they should consider. When he was all hoped that the students at asked what the penalties were for Worthington High School realized the risks involved in snowball throwing and will soon learn to curb their reactions to snow in the future.

Senior Citizen - Santa. (Photo by David O'Herron)

Meet Santa

SANTA CLAUS COMES TO TOWN

we decided to honor the holiday season and interview a senior citizen everyone knows - Santa Claus. Most high school students claim they do not believe in Santa Claus. But, kids - good news. Santa is alive and well and is STILL living at the North Pole!

Santa arrived in Worthington for our interview in a red Vega with white racing stripes. When asked why the Vega instead of Rudolph and the sleigh, he said that Rudolph was busy that weekend with some doe, and he added, the traffic in the skies is terrible this time of year.

Santa seems to keep up with contemporary happenings. "You have to know what's going on in the world to see what types of

Instead of The Chronicle's toys kids'll want." Examples he usual senior student interview, gave were Agnew watches, GI Joes, fighter bombers and space

> Santa went on to comment on the increasing complexity of toys these days. "Used to be a little girl wanted a doll that would open and shut her eyes. Now not only does the doll do that, but she also has to cry, talk on the phone, dance around, and grow hair."

> For this reason Santa plans to attend NPSATM (North Pole School for Advanced Toymakers) to achieve his masters.

> Santa said he didn't understand what all the "jock-freak" talk was that he heard in our halls. He said assuredly, though, that he would "give presents to anybody and everybody." There are no limitations in his book! With this, Santa stuffed his chubby body into the little Vega and as he drove out of the school parking lot we heard him yell "Merry Christmas to all and to all a good night!" We felt this wish was well put, and we on The Chronicle Staff wish the same to you! Merry Christmas!

Cards Fall Short-Drop Three Games

Yellow Jackets Sting Cards

by Mark Buckelew

The crowd was tense following the close Junior Varsity game at Mt. Vernon on December 1, Worthington edged the Yellow Jackets with a final score of 33-29. Throughout the second half the score was tied until Steve Sullivan broke the tie, making the score 31-29. Tom Short was fouled in the closing seconds, resulting in a 33-29 final score.

The Mt. Vernon gym is a bit different than most. The floor is not wood but rubber. It's made of a type of rubber harder than wrestling mats, yet softer than wood. It is known as a Tartan floor.

Talking with Coach Pat Mannion before the games, I asked him what advantages the Tartan floor had over the conventional wood floor. He said the maintenance is somewhat easier, because it doesn't have to be re-
